

SHIFAS SHAINAD

Software Developer | Python Full Stack Developer | MERN Stack Developer

Kerala, India | +91 62351262960 | shifasshainad122@gmail.com

LinkedIn: www.linkedin.com/in/Shifasshainad | GitHub: github.com/shifasshainad

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Software Developer with hands-on experience in Python Full Stack and MERN Stack development. Skilled in building scalable web applications, RESTful APIs, authentication systems, CRUD-based platforms, and database-driven solutions using Python, Django, React.js, Node.js, Express.js, MongoDB, and MySQL. Experienced through internships, software engineering simulations, and real-world projects with strong analytical and problem-solving abilities. Passionate about building secure, user-focused, and efficient applications while continuously learning emerging technologies.

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript, PHP, HTML5, CSS3
Frameworks & Libraries:	Django, React.js, Node.js, Express.js
Databases:	MongoDB, MySQL
Tools & Platforms:	Git, GitHub, REST APIs, Postman, VS Code, MongoDB Atlas
Core Concepts:	OOP, MVC Architecture, CRUD Operations, Authentication Systems, API Integration, Database Management, Debugging, Unit Testing, Full Stack Development
Languages Known:	English, Malayalam, Hindi, Tamil

INTERNSHIP EXPERIENCE

MERN Stack Development Intern – Ziuke Infotech Pvt. Ltd. | Mar 2025 – Apr 2025

- Developed responsive MERN stack web application modules using MongoDB, Express.js, React.js, and Node.js.
- Contributed to the Spot Rent rental platform as part of a collaborative development team.
- Integrated frontend-backend communication using RESTful APIs and optimized application responsiveness.
- Worked on debugging, testing, and feature enhancements to improve user experience and application stability.

Python Full Stack Intern – Cynosylix Technology | Feb 2026

- Developed backend functionalities and database-driven modules using Python and Django.
- Implemented secure authentication workflows and optimized application performance.
- Improved application efficiency through debugging, testing, and code optimization techniques.
- Gained practical experience in full stack application development and backend architecture.

Python Development Intern – Infotech | Oct 2023 – Nov 2023

- Assisted in backend logic implementation using Python technologies.
- Worked on software testing, debugging, and workflow optimization tasks.
- Gained practical understanding of the software development lifecycle and project collaboration.

PROJECTS

Auction Website | Python, Django

- Developed a secure online bidding platform enabling users to buy and sell products through real-time bidding functionality.
- Implemented user authentication, secure session handling, and database-driven product management.
- Designed responsive UI components and optimized backend operations for improved user experience.

Online Real Estate Management System | PHP, MySQL

- Developed a web-based property management platform for listing, searching, and managing properties.
- Implemented CRUD operations, authentication systems, and responsive UI features.
- Designed modules for secure property handling and efficient database management.

Cafepeedika Cafe Website | HTML, CSS, JavaScript

- Designed and developed a responsive cafe website with interactive frontend functionality and modern UI design.
- Improved user experience through responsive layouts and optimized frontend components.

EDUCATION

B.Voc in Software Development & System Administration

MES College Marampally, Kerala | 2023 – 2026

CERTIFICATIONS

- Python Full Stack Internship – Cynosylix Technology
- MERN Stack Development Internship – Ziuke Infotech Pvt. Ltd.
- Software Engineering Job Simulation – Hewlett Packard Enterprise (Forage)
- Software Development Job Simulation – Datacom (Forage)
- Python Internship – Infotech

ADDITIONAL INFORMATION

- Open to relocation and remote opportunities.
- Strong interest in Software Engineering, Backend Development, and Full Stack Development.
- Passionate about learning emerging technologies and building scalable applications.
